

Introduction

Intro

ARCH DECO GLASS® was built on the foundation that Arch Aluminum and Glass Co., Inc. created over 30 years ago.

By combining the manufacturing strengths, processes, knowledge, product offering and commitment to customer satisfaction with over 30 locations throughout the North America, Arch Aluminum & Glass Company, Inc. and Arch Deco Glass® are Your True Single Source.™

Light, glass, color, texture and design are the palette of Arch Deco Glass®. From a subtle accent that supports an overall theme to a bold statement that becomes the visual focal point, these decorative glass products give architects, designers and building owners new ways to define space. In addition to its decorative powers, there are also functional components to Arch Deco Glass®. Enhanced safety, security, solar and sound performance are a few of the benefits of Arch Deco Glass® products. We also pride ourselves on our commitment to the environment by supplying sustainable, LEED friendly products.

Decorative products from surface applied vinyl, sandblasted, textured and acid etched glass- To silk-screened and digitally created images- To Visual™ Vanceva™, Sumiglass® and SentryGlas® Expressions™ laminated glass, Arch Deco Glass® is your true single source.

Fabrication such as heat strengthening, tempering, insulating, beveling, edge polishing, v-grooving, drilling and notching let you design with glass for almost any application.

Skylights, windows, doors, sidelights, office partitions, curtain walls, handrails, elevators, canopies, shower doors, table tops, cabinets, booth partitions, furniture, light diffusers, artistic and decorative accents are just some of the applications for Arch Deco Glass®.

Anywhere you can use glass, whether remodeling or starting from the ground up, Arch Deco Glass® has a decorative alternative to meet almost any budget.
